Please note that colors may not match this printout exactly once printed on the silver disc surface.

Because of the nature of printing on CDs, the area within 1/2 inch from the center of the disc may experience a slight color shift.

**NOTE TO CLIENT:** Your original image supplied for the disc was in full color, you are set up for a 3 color spot so we had to modify your image to work with spot colors. If you wish to upgrade to full color or have any questions feel free to ask your project manager
